

WearableDevice

```
classDiagram
    class WearableDevice
    class MyoDevice
    class TestWearableClass
    MyoDevice --|> WearableDevice
    TestWearableClass --|> WearableDevice
```

The diagram illustrates a class hierarchy. At the top is the 'WearableDevice' class. Below it are two subclasses: 'MyoDevice' on the left and 'TestWearableClass' on the right. A horizontal line connects the two subclasses, with a vertical line and an upward-pointing arrow from the center of this line to the 'WearableDevice' box, indicating that both 'MyoDevice' and 'TestWearableClass' inherit from 'WearableDevice'.
